1. Appointment and scope

The Owner appoints the Manager solely for this fictional testing scenario. The Manager may coordinate routine maintenance, collect sample rent records, prepare monthly statements, and retain copies of approved invoices. No authority in this document is real or transferable.

2. Management fee

The sample management fee is 6.0% of gross monthly rent collected. Extraordinary work above USD 500 requires written approval. The amount is intentionally included to test currency rendering and long line wrapping.

3. Record keeping

Income, expenses, taxes, maintenance decisions, and supporting files must be recorded against the correct property. Digital records should identify the transaction date, category, amount, currency, and an optional note.

4. Privacy

Tenant names, identity documents, access codes, banking details, and private correspondence must not be entered into this sample. This file contains fictional data only.
